EXPERIENCE

Fullstack Developer March 2023 - Present
FiveP Australia *Melbourne, AU*
- Contributed to the development to the company's system using ASP.NET, Entity Framework, SignalR, and C#, focusing on optimizing performance and improving user experience
- Collaborated with developers and designers to implement front-end features using React.js, enhancing the application's interactivity and responsiveness
- Played a key role in successful data migration tasks, ensuring smooth transition of client data
- Managed code repositories, PR's, branch management, and version control using Azure DevOps, gaining experience in collaborative development workflows
- Developed in-house programs and tools to streamline documentation processes and enhance release notes, improving team efficiency
- Actively engaged in clear and effective communication within the team, leading brainstorming sessions to clarify requirements and enhance project understanding

Mobile Developer May 2021 - March 2023
Maliksi Creative Technologies Inc. *Makati, PH*
- Collaboratively contributed to the development and management of 2 client mobile apps, seeking guidance from senior team members when needed
- Orchestrated streamlined app builds and releases for QA and Team using Firebase App Distribution and Apple Testflight
- Collaborated seamlessly with QA to conduct thorough testing of both client mobile and web apps
- Provided pivotal support to the back-end team in executing a seamless database migration
- Contributed actively to UI/UX design discussions, offering valuable insights for improved design functionality and user experience
- Successfully executed the migration of a client's Flutter app from version 1 to version 2

Java Software Developer January 2021 - March 2021
Courtesy Point Technologies Inc. *Makati, PH*
- Trained by company to use tools & technologies of their stack (Java, Maven, Spring, Hibernate, Jasper Reports, and Wicket)

PROJECTS
